North opens 1 ♠. How do you respond? You bid 2 ♦, a 2/1 force to game. North rebids 2 ♥, showing a 4-card heart suit.

You don't have 4 ♥s, nor do you have 3 ♠s. Furthermore, you don't have stoppers in ♣s so you cannot bid NT. Since you have to keep bidding, but have no reasonable bid you can make, you bid the fourth suit, 3 ♣. Compare this Deal with Deal 21. North understands that South's ♣ bid is Fourth-Suit-Forcing, and does not actually show ♣s. However since North does have a ♣ stopper he bids 3NT. In this case this turns out to be the best game contract.

East passes - what should you open? East now bids 2 ♦. Since East originally passed this is **NOT** 2/1 Game Force. Instead, it is non-forcing and shows 11 or more points. You should show your 4-card ♥ suit. East gives a preference to 2 ♠. What do you do now?

Knowing that East does not have opening strength you pass 2 ♠.

♣ A 8 5

South opens 1♠. With 9 points and a doubleton ♠ you must respond 1NT. Partner rebids 2♣.

North prefers ♣ over ♠ but must allow for the possibility that South has bid a 3-card suit. So North gives a preference to 2♠. This is called a "false preference", but it assures the team of being in at least a 7-card fit. South happily passes and the pair lands in a reasonable contract, probably better than 1NT.
