Sometimes using Negative Doubles seems like you can read minds. You know for sure that partner has 4 ♠s since that is the only unbid Major. You know for sure that partner has 10+ points because he made a Negative Double of a 2-level overcall. So you conclude that your side has 8 ♠s and 27+ points . . . . . and you bid 4 ♠.

The general guideline for a Negative Double when both Majors are unbid is that you must have 4+ cards in at least **ONE** of the Majors. But for this specific sequence, 1♣ - 1♦, you do not double unless you have **BOTH** Majors. When you have only one of them you just bid it. Like this hand. You bid 1♠. Partner rebids 1NT.

Partner has a minimum hand and fewer than 4 ♠s. A good time for you to pass.
