All Pass

2♦ by North  
 who bids 2♦, the final contract.

The bidding has been as shown.

The redouble has taken the force from you - you can pass if you want to. But if you pass, the most likely scenario is that North will also pass. So partner will either have to let them play 1♦ redoubled (which will be a disaster for your side) or take out his own double by bidding some suit. So he will bid a suit and it will almost surely be 1♠.

You can help your side the most by bidding 1♥ immediately. You don't have to worry that partner will believe you have a good hand; both he and North have 13+ points and South's redouble shows 10 or more. He knows there are no points remaining for you to have.

On this deal your ♥ bid gets passed around to South

5♣ by East

The bidding has been as shown.

The problem with making a Takeout Double of a preemptive bid is that the bidding for your side starts out a level or two higher. So you can't risk doubling with a flimsy hand. However, this hand is certainly good enough so you double. Partner responds 3♥.

After partner cuebids the next job is to find a suit, so you bid 3♠. Partner now bids 4♣.

You cannot stop short of game. Partner has apparently rejected your ♠ suggestion. Since you are happy to play in ♣s you bid 5♣.
