6 ♠ by South

With all the eliminations completed you are ready for the throw-in. Lead a ♥ from either hand. One of the defenders will win, (you don't care which), and will be end-played.

The defender who won the last trick cannot lead a trump because he has none. If he leads a ♥ or a ♣ you will get a ruff-sluff, ruffing in one hand while discarding a ♦ loser from the other. If he leads a ♦ you will get the free finesse you were hoping for all along.

If you finesse East for the ♦ Q you make the contract, but if you finesse West for that card you go down.

With an elimination play you make it no matter who holds the Queen.

North's 3 ♠ bid is a limit raise showing 10-12 points and good trump support. South is to play 6 ♠. West leads the ♥ Q.

This ♦ holding is the first example shown in the introduction.

With one certain ♥ loser you cannot afford to lose a ♦ also. You could guess which way to finesse and be correct half of the time. But an elimination play will work ALL of the time.

Win the first trick and play ♠ A, ♠ K. Trumps split 2-1.

Next play three rounds of ♣s to eliminate that suit from both your and dummy's hand.

 are in. This will be taken by one of the defenders.

No matter which defender wins the ♥ he is end-played. A ♥ or a ♣ will give you a ruff-sluff, but if he leads a ♦ you cannot be prevented from establishing either your ♦ Q or ♦ J as a winner.

If you try to make a ♦ trick on your own you will fail. The first defender will play "second-hand-low" and the other defender will take your ♦ Q (or ♦ J).

Only by forcing them to start the ♦ s can you take a trick in the suit.

South is to play 4 ♠. West leads the ♥ Q.

This ♦ holding is the second example shown in the introduction.

This should remind you a lot of Deal 1. This time you have 1 ♥ loser and 3 ♦ losers. If you can force the opponents to lead ♦ s you can make a trick with the ♦ Q or ♦ J, avoiding one of those losers.

Win the first trick and play ♠ A, ♠ K. Trumps split 2-1.

Next play three rounds of ♣ s to eliminate that suit from you and dummy.

The eliminations are complete and it is time for the throw-in. Play the small ♥ from whichever hand you

South is to play 6 ♠. West leads the ♥ Q.

This ♦ holding is the third example shown in the introduction.

This is another follow-up to Deal 1. But this time you are missing both the ♦ Q and ♦ J. In this case an Elimination play doesn't give you a guarantee, it just improves your odds.

Win the first trick and play ♠ A, ♠ K. Trumps split 2-1.

Play three rounds of ♣ s to eliminate the suit from you and dummy.

Now execute the throw-in by leading a ♥ from either hand.

The defender who gets thrown in cannot play a ♥ or a ♣ without handing you the contract by way of a ruff-and-sluff. So he must lead a ♦. Suppose it is West who leads the ♦. You play low in dummy and East must play either the ♦ Q or ♦ J to keep you from getting a cheap trick with your ♦ 9. So you take East's honor with your ♦ A and then finesse West for the other honor. As long as the ♦ Q and ♦ J are in different hands the elimination play will succeed.

Against good defenders there is no way you can make all three ♦ tricks if you make the first play in the suit. This assumes that if one defender held both the ♦ Q and ♦ J he would "split" the honors if you tried to lead through them.

By forcing them to start the ♦ s you make three tricks when the two outstanding honors are divided.
