3NT by North

Welcome to the real world.

North is to play 3NT. East leads the ♥Q.

Winners: ♠=0 ♥=2 ♦=2 ♣=4 Total = 8

Needing one more winner you should see right away that it cannot come from ♥s, ♦s, or ♣s. That means you must hope that West has the ♠A. Win the first ♥, then play your 4 ♣ winners ending in dummy.

The moment of truth. You lead a small ♠ from dummy. West plays low and you play the ♠K.

Unfortunately East takes your ♠K with the ♠A. He then plays another ♥ and you at least make 8 tricks but have no hope for a ninth one so you go down 1.

You probably thought since these Deals were all about finesses that they would work all of the time.

4♥ by East

At this point you have not lost any tricks, and you can see that you have only 3 losers remaining in your hand. So you start pulling trumps and establishing the ♣s.

If the ♦ finesse had lost you would have gone down 2 instead of just one.

The risk was worthwhile though since it gave you your only chance of making the contract.

East is to play 4♥. South leads the ♠K.

Losers: ♠=2 ♥=1 ♦=0 ♣=1 Total = 4

South found the best opening lead for his side, exposing your ♠ losers before you could establish the ♣ suit for a discard. If you start to pull trumps right away the defense will grab the ♥A, then take their two ♠ tricks and you will still have the ♣A that you cannot avoid.

Other than the ♦A the only useful card in dummy is the ♦Q so you must try to make a winner out of that for a discard. So win the ♠A, lead your singleton ♦ and finesse the ♦Q. Your luck has returned, the ♦Q wins and you discard one of your ♠ losers on the ♦A.
