3NT by North

and then a small ♠ back toward your ♠ Q J. Here West puts the ♠ K on and you are home-free.

You were a little lucky that West's ♠ K fell on the second round.

If it had not dropped you would just have played a third round of ♠ s, hoping for a 3-3 split in the suit.

Clickagain.

You could also have gotten 3 ♠ winners with this distribution.

North is to play 3NT. East leads the ♥ Q.

Winners: ♠=1 ♥=2 ♦=1 ♣=3 Total = 7

You need two more winners and ♦ s is your longest combined suit. But you can only establish one extra winner in ♦ s, and before you could even do that the defenders would have taken a bunch of ♥ tricks.

So you must turn to the ♠ s for the extra two winners.

You win the first ♥ and lead . . . which ♠? If you play the ♠ Q you will go down, even if East has the ♠ K. He would cover and you would be held to just 2 ♠ tricks.

The only way to get 3 tricks from this holding is to play West for the ♠ K. So play a ♠ to dummy's ♠ A

East is to play 3NT. South leads the ♣A, then ♣K, ♣2. North follows once, then discards a ♠ and a ♥.

South leads the ♣A, then ♣K, ♣2. North follows once, then discards a ♠ and a ♥.

Winners: ♠=1 ♥=3 ♦=2 ♣=2 Total = 8

There are two possibilities for getting an extra winner. If the ♦s are splitting 3-3 you could play ♦A, ♦K and another ♦ and establish the thirteenth ♦ as a winner. Or you could play North for the ♠K and lead toward your ♠Q.

The chance of North holding the ♠K is a little greater than 50%. (it is higher than the usual 50% because we know he started with only one ♣, giving him more spaces for other cards).

The chance of ♦s splitting 3-3 is about 40%.

So you should enter dummy with a ♥ and play a small ♠ toward your ♠Q.

Did it work?

You might have thought of another possibility; duck a ♦, then play ♦A and ♦K to see if the ♦s split before you try leading toward the ♠Q.

The problem is that you might run into this very distribution. You would establish a ♦ for North and when you played a ♠ from dummy North would jump up with the ♠K and cash his winning ♦ for down 1.
