3NT by North

North is to play 3NT. East leads the ♥K.

Winners: ♠=3 ♥=1 ♦=0 ♣=4 Total = 8

Unless there is a miracle in the ♦s, (or a defensive error), you can't get a trick in that suit. But you have a chance for a second ♥ trick.

It's the Bath Coup again, just dressed up a little differently.

Let East hold the first trick, playing the ♥7 from your hand to conceal the ♥4 in the hope that East will continue the suit. If he does you have your ninth trick - if he doesn't, good luck.

Compare this Bath Coup to the one in Deal 10.

3NT by East

will play his honor, win the trick, and clear the suit by leading his small x. If South can get in with the ♣A he will run the ♠s.

But what will North do if you play dummy's ♠A? If he plays his small one the ♠ suit will block. If he unblocks his honor card then your ♠ 10 9 5 3 will provide a second stopper in the suit. So you go up with dummy's ♠A and guarantee the contract.

A tough finish that needs some real visualization to get right.

Of course from now on you will recognize it.

East is to play 3NT. South leads the ♠7.

Winners: ♠=1 ♥=2 ♦=3 ♣=0 Total = 6

It's pretty clear that your extra tricks are going to have to come from the ♣ suit. The danger here is that South may have a 5-card ♠ suit that he can establish and the ♣A as an entry. So what is the best approach, hold up or not hold up?

To answer that question you must think about South's lead. Since he did not lead the ♠K you know he doesn't have a suit headed by K Q J. So you can visualize North sitting there with a doubleton honor in ♠s. It might be ♠ K x, ♠ Q x or ♠ J x, but it is surely one of those three.

Think what North will do if you duck in dummy. He
