3NT by South
home-free since dummy's 3 ♦s are now established.

South is to play 3NT. West leads the ♠2, East plays the ♠J.

Winners: ♠=2 ♥=2 ♦=1 ♣=2 Total = 7

You need two more winners and dummy's ♦ suit is your only hope. **IF** ♦s split 3-2 and **IF** the defenders don't take too many winners in their suit(s) you can establish ♦s by ducking twice.

Win the first ♠. If you hold up they might pocket the ♠ trick and switch to another suit where you only have two stoppers.

Next play a small ♦ from each hand. Win the return (probably a ♠) and duck a second ♦.

If the defenders can only take 2 ♠ tricks now you are

You had to have the defender's ♠s split 4-3. But in fact you were pretty sure they were going to do so. Since West's ♠2 was probably his fourth-down then he couldn't have a fifth-down.

North's 3♦ bid was a transfer to ♥s. South is to play 3NT. West leads the ♠2.

Winners: ♠=2 ♥=0 ♦=2 ♣=1 Total = 5

Obviously you need to establish 4 ♥ winners and by driving out the ♥A you can manage that handily.

The problem is that dummy has only one sure entry, (the ♠A), and the defenders may be good enough to hold up their ♥A twice.

To assure the contract you should win the first trick in your hand with the ♠K. Then play ♥Q, ♥J overtaking with dummy's ♥K so you can continue establishing the suit while you still have that ♠ entry.

None of the other suits were sitting well so overtaking the ♥ was the way to go.
