get to your hand.

[showcards W:DA N:D2]

You are West. The bidding has been as shown. East led the ♦ A, dummy played the ♦ 2

Play the ♦ Q.

As soon as dummy appears you can see 3 tricks for your side. Partner surely has the ♦ K to go with his Ace and you have a certain trump trick. However, that's all you can see.

Your best hope is that East may be able to win a ♠ trick, and it may be important for the first ♠ lead to come from your side of the table.

Your ♦ Q play informs partner that you also have the ♦ J, giving him the option of underleading his ♦ K to

East next plays a small ♦ which you win with your ♦ J. You return the ♠ 10. This establishes East's ♠ K before North can pull trumps and discard one of dummy's ♠ s on his fourth ♣.

you had to do was toss a small red card?

[showcards S:CT]

You are South. The bidding has been as shown. You led the ♠5, North plays the ♠10 and East wins the ♠K. To the second trick East plays the ♣10 and you must discard something.

Play the ♠J.

You know that North has no high ♠ honor or he would have played it to the first trick. So East has the ♠A Q left, plus all those ♣ tricks. You need to have South switch to a ♥ if possible.

North must be expecting to lead a ♠ back when he wins the ♣Q which you hope he holds. Your ♠J discard may make him rethink. If your ♠s were any good why would you be discarding a winner when all

Hopefully North will come to the conclusion that this is Suit Preference for a ♥ return and will play his ♥J. Hopefully.
