[showcards N:DT]

You are East. The bidding has been as shown.

Partner led the ♥4, won by South's ♥8.

South enters dummy with the ♠K and leads the ♦10. What do you play?

Play the ♦A.

You don't have much in your hand, but you do have the ♦A, and you also have the responsibility to help West set up his suit.

So even though you don't know for sure how good that suit is, your plan of action should be to take the ♦A and return a ♥.

As you see, this will defeat the contract. Had you played a low ♦ South would have pocketed that trick and added 4 ♣s and 3 ♠s to go with the ♥ he had already won.

3NT by South

East, so you play your ♣J and let East win his ♣A. You can be sure East has the ♣A because South would have played the suit differently if he held the Ace.

East will win the ♣A and return his ♠ through South's ♠ A Q. This allows you to set up your ♠ suit while you still have the ♣K for an entry.

[showcards S:C6]

You are West. The bidding has been as shown.

You lead the ♠7; ♠3, ♠2 and won by South with ♠Q.

South then plays the ♣6 from his hand. Which ♣ should you play?

Play the ♣J.

You should not allow yourself to be misled by South winning the first trick with the ♠Q. East does not hold either the ♠A or the ♠J or he would have played it. South is just trying to be deceptive.

That means you need the next ♠ play to come from
