4 ♠ by North

Partner accepts the invitation.

South would play 4 ♠.

Click

North plays 4 ♠. East leads the ♦ 2. West plays ♦ J.

North plays 4 ♠. East leads the ♦ 2. West plays ♦ J.

Losers: ♠ 1 : ♥ 0 : ♦ 2 : ♣ 2 : Total = 5

Counting losers from the North hand you have 2 ♣ losers to get rid of. If you had counted from the South hand there would have been 2 ♥ losers to get rid of. In any case the plan is the same.

Win the ♦ A and play ♠ A and ♠ K. If the ♠s split 3-2 you are home-free. Leave the master trump out and play your ♣ A K and dummy's ♥ A K. Then cross-ruff ♣s and ♥s. Whichever defender holds the last trump is welcome to ruff with it at any time. The defense is also welcome to take their 2 ♦s at any time. Your 10 tricks are safe.

This is another example of the general principle to leave a master trump out.

South and North were able to make all their small trumps individually.

If West ruffs the fourth ♥ with his master ♠ Q North just discards a ♦ loser and makes an overtrick.

There is an excellent bidding guideline which tells you how to respond with two 4-card Majors. You bid them "up-the-line". That means you bid 1 ♥.

Partner's rebid is 1 ♠.

This hand shows why responder should bid "up-the-line". Partner can now show a 4-card ♠ suit at the 1-level. Imagine the suits reversed - you first respond with 1 ♠. If partner wanted to show a ♥ suit he would have to go to the 2-level, and he might not have the strength to do so.

Back to the actual situation. Over partner's 1 ♠ bid you jump to 3 ♠. This jump shows about 11-12 points and good ♠ support (4 cards). In case you thought this showed 13 or more points that wouldn't be logical. If you had 13 points and 4 ♠s you would jump all the way to game. So 3 ♠ is invitational.

the ♣s split 3-2, which is very likely, you can set up the tricks you need. **BUT**, if you just play ♣A ♣K and then a small one you'll be sorry. Those extra three ♣s will be established as winners but you will have no entry to them.

Instead, you play your ♣4 to the second trick and also play a low card from dummy. This is called Ducking the trick. East/West will certainly win that trick, but you are in control. You can win whatever suit they play and you still have that ♣7 to reach dummy's solid ♣s.

You can see that with ♣s splitting 3-2 the Duck insures the contract.

But just imagine you had played ♣A, ♣K, ♣2. At that point ♣ 9 6 5 would all be winners, but don't think East is going to let you reach dummy with either of those two Jacks!

You have 15 points and you have a balanced distribution. You should open 1NT. It is true that you do not have ♣s stopped, but you are not required to have a stopper in all the suits to open 1NT. Partner jumps to 3NT and you pass.

South plays 3NT. West leads the ♥Q.

South plays 3NT. West leads the ♥Q.

Winner count: ♠ 1 : ♥ 2 : ♦ 1 : ♣ 2 : Total = 6

In many Notrump hands it is good to hold up to disrupt the defender's communications. In this hand you have a double-stopper in ♥s but only a single stop in ♠s and ♦s so win the first trick.

You need 3 more tricks from the ♣ suit. As long as

Losers: ♠ 1 : ♥ 0 : ♦ 1 : ♣ 1 : Total = 3

Is there any doubt? Although you only have 11 HCP your 6-card suit adds 2 more. And with 13 points you should always open. So you open 1 ♣.

Partner responds 3 ♣.

With the ♣ fit your hand is now revalued to 15 points. But it's still a close thing. You may be able to make 5 ♣ or you may not.

Passing would not be horrible - but when in doubt it is usually better to be bold. You cross your fingers and bid 5 ♣.

North plays 5 ♣. East leads the ♦ Q.

North plays 5 ♣. East leads the ♦ Q.

The two black Aces aren't going away so if you are to make this contract you must do something about your ♦ loser. And the only likely place to put it is on dummy's ♠ K. If East has the ♠ A, you can lead up to the ♠ K and make a winner out of it.

Suppose you win the ♦ Q in dummy and play a ♣. Somebody will win the ♣ A and play another ♦. You win this and lead toward the ♠ K. No good. East jumps up with his ♠ A and sets you with a ♦ winner.

The problem was that when you played a trump you let the timing go to the defense. They could knock out your last ♦ stopper while they still had the ♠ A. Try it this way.

Win the ♦ in your hand and immediately play the ♠ 9. If East doesn't take his ♠ A he'll never get it, so assume he goes up. Now he leads ♦ J but you win, get to dummy with the ♥ K and play the ♠ K, discarding the ♦ loser.

Pulling trumps is very important, but sometimes there is something you must do **BEFORE** you play trumps.

In this hand that something is to establish the ♠ K so you can discard your ♦ loser.
