NORTH thinks slam may be possible, so she uses Blackwood.

And that's what Blackwood is really good for - keeping you out of slams when you are missing two Aces!

SOUTH knows NORTH has at least five ♠s, and they might provide discards for two or three of her minor suit losers.

She tries Blackwood and, sure enough, NORTH comes through with two Aces.

Even with all the Aces SOUTH knows there are not enough points for Grand, so she bids 6♥.

When SOUTH answers Blackwood with one Ace
 NORTH decides to bid 5NT to ask for Kings.

With two Kings, SOUTH would bid 6♥. But she
 knows that if she does so, NORTH might stop right
 there.

Knowing the 5NT bid guarantees all four Aces,
 SOUTH figures her ♣ suit will supply five tricks so
 she bids 7♥.
