This time NORTH has a minimum 1NT opener; a balanced hand with 15 points.

SOUTH has 9 points; he knows that the partnership is somewhere between 24 (9 + 15) and 26 (9 + 17). So he invites with a 2NT bid.

NORTH, with a minimum, declines the invitation by passing.

SOUTH has a strong hand, 20 points and balanced distribution. It is just right to open 2NT (20-21 points).

NORTH adds her 2 points to SOUTH's promised number of 20 or 21. Since she doesn't reach the magic game number of 26 points she just passes.

NORTH has a mid-range 1NT opener; a balanced hand with 16 points.

SOUTH has 9 points. He bids 2NT, asking NORTH to pass if she has 15 or bid 3NT if she has 17.

But NORTH has 16 points, which leaves her with no clear choice. In this case she must decide whether her hand is a "good" 16 points or a "poor" 16 points. Since her supporting cards are mostly 10's, 9's and 8's she figures it as "good" and bids 3NT.
