South opens 1♠. You respond 2♦, a 2/1 force to game. Partner rebids 2♥, showing a 4-card side suit.

You don't have 4♥s, nor do you have have 3♠s. You do, however, have stoppers in ♣s so you bid 2NT. South happily says 3NT.

| 3NT by South |       |      |       |

South opens 1 ♠. How do you respond? You bid 2 ♦, a 2/1 force to game. South rebids 2 ♥, showing a 4-card heart suit.

You don't have 4 ♥s, nor do you have 3 ♠s.

Furthermore, you don't have stoppers in ♣s so you cannot bid NT. Since you have to keep bidding, but have no reasonable bid you can make, you bid the fourth suit, 3 ♣.

Compare this Deal with Deal 21.

South understands that North's ♣ bid is Fourth-Suit-Forcing, and does not actually show ♣s. However since South does have a ♣ stopper he bids 3NT. In this case this turns out to be the best game contract.

South passes - what should you open? South now bids 2♦. Since South originally passed this is **NOT** 2/1 Game Force. Instead, it is non-forcing and shows 11 or more points. You should show your 4-card ♥ suit. South gives a preference to 2♠. What do you do now?

Knowing that South does not have opening strength you pass 2♠.

South opens 1♠. With 9 points and a doubleton ♠ you must respond 1NT. Partner rebids 2♣.

North prefers ♣ over ♠ but must allow for the possibility that South has bid a 3-card suit. So North gives a preference to 2♠. This is called a "false preference", but it assures the team of being in at least a 7-card fit. South happily passes and the pair lands in a reasonable contract, probably better than 1NT.
