3NT by North			

You have great ♦ support and perhaps 15 points. The "perhaps" is because partner may have only 3 ♦s, and if you are the long-trump hand any ruffs you take will probably not increase the number of trump tricks your side makes. But still, you have a great hand.

So you bid 3♦. Partner now says 3NT.

You described your hand very well with your first bid. Partner heard the description and chose 3NT. Since you trust your partner you pass.

You must make a weak response, and in theory there are 3 weak responses you could make with this hand. You could bid 2 ♣, 1 ♠ or 1NT. And while none of them would be actually incorrect the best choice is to show your 4-card Major.

You bid 1 ♠. Partner jumps to 3 ♠.

You started with just 6 points, and after discovering the ♠ fit you revalue all the way up to 7 points. Partner has shown 16-18 and that's still not enough for game. You pass.
