3♥ by North

You open 1NT and partner responds 2♦. However, your Right Hand Opponent injects a 2♠ overcall.

More often than not it is correct to pass after an opponent overcalls your partner's transfer response. This is because your partner might be very weak, and in any case your partner knows a lot about your hand while you don't know much about his.

However, in this case you know that your side has at least 9 ♥s, and you are weak in ♠s. So you bid 3♥, knowing that even if you go down it may be better than letting them play ♠s.

2♠ by East			

You open 1NT and partner responds 2♦. However, your Right Hand Opponent injects a 2♠ overcall.

It is usually correct to pass in this situation, particularly if you are not strong in partner's suit. So you pass and partner doubles.

Partner's double is called a Cooperative Double. It doesn't mean he has a ♠ stack, it just means that your side has the balance of power and East may have over-reached himself.

If you had good ♥s you might bid them now. Or, it is possible that you could make 3NT. But it is likely that you are going to make a bigger score in penalties so you pass.
