[showcards W:CA N:C2]

You are West. The bidding has been as shown.

Partner led the ♣A, dummy played the ♣2

Play the ♣3.

If you signal with the ♣9 East will continue with the ♣K and another which you will have to ruff. You will give up your NATURAL trump trick by doing so. Worse, you will allow South's ♣J to be established as a winner that North can later discard a ♦ on.

Much better to play low. Partner will surely switch to a ♦, and North will probably finesse, though it doesn't matter whether he does or not. You will win the ♦K, return the ♣9 back to East's ♣K, and still have your trump trick for later.

that ♠J if you hadn't played this way.

You are South. The bidding has been as shown. You led the ♠A, North plays the ♠9, East the ♠5. You assume North has signaled you to continue ♠s, so you play the ♠Q. On this trick North plays the ♠3 and East the ♠8. How will you continue?

You know that both North and East are now void of ♠s. You might just switch suits, but you have a better choice.

If you play your ♠Q, North won't bother ruffing, East **WILL** ruff and dummy's ♠J will be established as a winner.

The best procedure is to lead a low ♠. North will ruff and East will over-ruff but by playing this way you stop the establishment of West's ♠J. As you can see, East would have been able to discard a loser on
