3NT by North

[showcards N:D5]

You are West. The bidding has been as shown.

Partner led the ♠J, won by dummy's ♠Q. The ♦5 is now played from dummy. What do you play?

Play the ♦2. Considering that North opened 1NT, he must have the ♦Q for this play to make sense.

So if you put on your ♦A, North will have TWO ♦ winners established. If instead you play low, then North cannot get a second ♦ trick and will have to look elsewhere for his ninth trick. As you can see, he is not going to be able to find it.

[showcards S:H2]

You are South. The bidding has been as shown.

Your lead of the ♣J was won by East with the ♣A. East then played the ♥2 and you must decide whether to split your honors.

Play the ♥4, do not split your Honors.

East's bidding showed at least 5 ♥s, so assuming he holds both the ♥A Q, it would be silly for him to finesse the ♥9 on the first trump play.

As it turns out, when you play low East calls for dummy's ♥K, North's ♥Q falls and you now have 2 trump tricks. If you had played the ♥10 you would have tossed away the setting trick.
