4♠ by North			

Losers: ♠ 0 : ♥ 0 : ♦ 3 : ♣ 1 : Total = 4

Since you've already lost the three ♦s you'd better not lose the ♣.

You must find West with the ♣K and you must be able to finesse three times. That means three dummy entries and they all must come from the trump suit.

Play the ♠A, then lead the ♠8 to dummy's ♠Q. Notice that you must save your ♠6. Pay attention to whether both defenders follow to both tricks. They do, and that means there is only one ♠ left out. Play a ♣ and finesse the ♣10. Now lead the ♠J to dummy's ♠K. Finesse the ♣J. Finally, lead the ♠6 to dummy's ♠7. Finesse the ♣Q. Claim the rest.

This was not an easy plan.

The first part is realizing that you need to have three entries to dummy.

The second part is figuring out that the ♠ suit could provide them.

Partner has 20-21 points, so with your 6 you belong in game. But which game?

You use Stayman convention to try to find out.
Partner responds 3♠.

You have at least 26 combined points and 8 ♠s. So you bid 4♠.

South would play 4♠.

4♥ by East

If the ♣ finesse works you have no ♣ loser, and as a bonus you will be able to discard one of your other losers. Even if the finesse fails you still have an extra winner for the discard.

Is there a danger here? Yes. Suppose you win the first trick, pull trumps, then finesse the ♣. North might win and play a ♠ back to South's hand. And South might then lead a ♦ through dummy's ♦K.

South is the Danger Hand. You want to keep him off the lead. His only possible entry is the ♠ suit, so all you have to do is hold up on the first trick. Win the second ♠, pull trumps as before, and finesse the ♣. North wins but cannot get to his partner's hand for the killing ♦ lead. You will discard one of your ♦ losers on dummy's fourth ♣.

You usually think of a hold-up play in a Notrump contract, trying to exhaust one defender of his partner's suit.

For this deal the hold-up serves a different purpose. It keeps one defender from ever gaining the lead.

You had to lose one ♠ in any case, so you just choose to lose it to the defender who cannot hurt you.

Notice that the Danger Hand **WAS** on lead at one point - the opening lead. If South had been clairvoyant enough to lead a ♦ the contract could have been beaten. Opening leads are important to the defense.

Don't even think of jumping to 2♥. That would show 17+ points. Instead you just bid 1♥, knowing partner is forced to bid again.

Partner does bid again, saying 2♥.

Partner's rebid promises a minimum opening bid (13-15) and four ♥s. That makes your total about 28 points and ten ♥s. So you bid game.

East plays 4♥. South leads the ♠2, North playing the ♠Q.

East plays 4♥. South leads the ♠2, North playing the ♠Q.
