♣ 4 2

With 11 points and a beautiful 6-card suit this is the perfect hand for a Weak-2 opener. So you open 2♦. Partner responds 2NT.

Partner's 2NT bid is a standard response to a Weak 2-bid. You are expected to rebid your suit if you have a minimum (6-8 point) hand. Otherwise you are to bid an outside suit in which you hold a high card - this is called "showing a feature". And the final possibility is this one, where you have a solid suit, either A K Q x x x or A K J 10 x x. In this case you bid 3NT.

West	North	East	South
			2♦
Pass	2NT	Pass	3NT
All Pass			
3NT by North			

South would play 3NT.

Click

North plays 3NT. East leads ♠J. West plays ♠K.

North plays 3NT. East leads ♠J. West plays ♠K.

Winner count: ♠ 2 : ♥ 1 : ♦ 3 : ♣ 1 : Total = 7

The ♠ lead assures you of two tricks in the suit. So you only need to create two more. If the ♦s split 3-2 (likely) you could get 3 extra tricks there. But there's a danger - if they split 4-1 you wouldn't have an entry to them. Well, you wouldn't have an entry unless you **DUCKED** the first ♦. Then a 4-1 split wouldn't prevent you from making 5 ♦ winners.

So you win the ♠A and lead the ♦3, planning to duck.

East shows out.

Make **PLAN B**, then

So you win the ♠A and lead the ♦3, planning to duck.

East shows out.

That's tough. No matter how you play them you can only get 3 ♦ winners. So you must turn elsewhere - elsewhere being the ♣ suit.

Win the ♦Q but don't play another ♦ yet, you need an entry back to dummy later. Instead, lead the ♣2 and finesse your ♣10. East will win with one of the high ♣s and probably return a ♠. You may as well take the ♠Q now. Play your ♦8 to dummy's ♦K, cash the ♦A, then play the ♣4, finessing your ♣J. Fortunately this wins and when you cash your ♣A both defenders follow. The rest of your clubs are good and you make an overtrick.

Sometimes you have to change your plan.

When the ♦s turned out to be 5-0 you had to get lucky. Your back-up Plan wasn't likely to work - it required the missing ♣ honors to be split, but also required a 3-3 ♣ split, not a likely outcome.

But there was no other choice so you have to try it.

4♥ by East
to your hand and ruff the ♠ 7 with dummy's ♥ 9. North may over-ruff this, but only with a trump trick he was going to win anyway.

You will lose two ♦ s and the ♥ Q but no more.

It is tempting to ruff the first ♠ with dummy's ♥ 9, hoping to sneak that through then ruff the second one with ♥ K.

The problem is that North would have over-ruffed the ♥ 9 and then played another ♥ and you would not have gotten to ruff either ♠,

You open 1♥, South overcalls 1♠ and partner passes.

You shouldn't let South steal from you so you will bid your ♥ s again. You must decide between 2♥ and 3♥. Given that partner might have had a pretty decent hand yet still have to pass, you decide to go with 3♥. Partner bids 4♥.

East plays 4♥. South leads the ♠ Q.

East plays 4♥. South leads the ♠ Q.

Losers: ♠ 2 : ♥ 1 : ♦ 2 : ♣ 0 : Total = 5

Win the ♠ K, then enter dummy with the ♣ A and play another ♠ toward your ♠ A. You do this to prevent North ruffing your high ♠. Next you lead the ♠ 2 and ruff with dummy's ♥ K. Ruff a ♣ to get back
