SOUTH has 13 points and can contribute six tricks so she figures that twelve tricks will be a slam (dunk).

However, just to make sure the opponents don't take the first two tricks she checks with Gerber.

Uh Oh, missing two Aces she signs off at 4NT. She could also happily play 5♣, but it would be tricky to get there. Very tricky.

4NT by East

Yes, this has nothing to do with Gerber or Blackwood, but everything to do with smart bidding.

WEST has a 16 points and EAST has 15, 16 or 17. WEST wants to be in 6NT if EAST has 17, but merely a Notrump game if she has 15 or 16.

The way to find out is to bid 4NT - not Blackwood but merely an invitation to bid 6NT. In this case, EAST has but 15 points and declines the invitation. If her ♥Q were changed to the ♥A she would bid 6NT and collect her twelve easy tricks.
