4♠ by North			

NORTH has a balanced 23-point hand. He opens 2♣.

With 6 points and two 4-card Majors, SOUTH can only say 2♦.

NORTH shows his minimum hand with a 2NT rebid.

Now SOUTH bids 3♣. This is not the second negative, but rather it is Stayman.

When NORTH shows his ♠ suit SOUTH bids 4♠.

WEST opens 2♣.

EAST should just respond 2NT, even with 11 points. The idea is to make a positive response (which forces the partnership to game level), and show extra strength later.

This time there is no need. WEST should bid 4♣ (Gerber), and EAST answers 4♠ for two Aces.

Next WEST should ask for Kings, and when EAST shows one King WEST should bid 7NT.

When NORTH opens 2♣ SOUTH has enough strength (9 points) for a positive response. But, because her suit is ♦s, she must jump to 3♦.

NORTH thinks slam and uses Blackwood to discover that SOUTH holds one Ace.

That's all SOUTH needs to know to bid 6♦.
