NORTH has a mid-range 1NT opener; a balanced hand with 16 points.

SOUTH has 9 points. He bids 2NT, asking NORTH to pass if she has 15 or bid 3NT if she has 17.

But NORTH has 16 points, which leaves her with no clear choice. In this case she must decide whether her hand is a "good" 16 points or a "poor" 16 points. Since her supporting cards are mostly 10's, 9's and 8's she figures it as "good" and bids 3NT.

EAST has 20 points and 4-4-3-2 distribution, so he opens 2NT.

WEST has 8 points. She adds EAST's 20 or 21 for a total of 28 or 29, enough for game but nowhere close to the slam requirement. So she bids 3NT and EAST passes.
