NORTH has 20 points and 4-4-3-2 distribution, so he opens 2NT.

SOUTH has 8 points. She adds NORTH's 20 or 21 for a total of 28 or 29, enough for game but nowhere close to the slam requirement. So she bids 3NT and NORTH passes.

4NT by East

EAST has a low-range 1NT opener; a balanced hand with 15 points.

WEST has 16 points; he figures the partnership holds either 31, 32 or 33. Obviously he wants to at least reach game, but if EAST holds 17 points he wants to reach slam.

WEST bids 4NT. Since this is more than game it should be clear to EAST that he is asking her to bid 6NT if she is at the top of her range. It is clear to EAST, but with just 15 points she passes.

SOUTH has a minimum 1NT opening hand -
balanced distribution with 15 points.

NORTH has 9 points, which is not enough to bid
game, but is worth making an invitational bid. So she
says 2NT.

Since SOUTH is minimum he declines the invitation
by passing.
