you only counted one ♥ loser - that means you MUST ruff a ♥ in your hand.

Win the ♦ lead and play ♥ A and another ♥ before you touch trumps.

After this there is nothing the defense can do to stop you ruffing one ♥ in your hand.

Just suppose for an instant that you had played ♠ A and another.

East would have taken the second ♠, then pulled your last ♠. When the ♣ finesse failed you would make only 8 tricks.

Partner's 2♥ bid is a transfer; you respond 2♠.
Partner now bids 3♠.

Partner's 2♥ bid is a transfer; you respond 2♠.
Partner now bids 3♠.

Partner tells you that he has only invitational strength, but has at least 6 ♠s. The ♠s are fine by you, but with only 15 HCP you decide to pass.

North plays 3♠. East leads the ♦ J. UhOh. Maybe you should have bid game.

Loser List: ♠ = ? : ♥ = 1 : ♦ = 0 : ♣ = 1 :: Total = ?

If the ♠s are 2-2 there will be only one loser in that suit. And maybe the ♣ finesse will work.

Don't get too optimistic too early. If you play ♠ A and another ♠ you could go down. Remember that

With 12 points and a 5-card Major you transfer partner to that Major. You bid 2♥. Partner bids 2♠. Now what do say next?

With 12 points and a 5-card Major you transfer partner to that Major. You bid 2♥. Partner bids 2♠. Now what do say next?

You must insist on game, but since partner could have a doubleton ♠ you do so by bidding 3NT to give him the choice.

He chooses 3NT by passing.

The contract would be 3NT played by North.

South plays 3NT. West leads the ♦ Q. Do you win the first trick or holdup?

Winner List: ♠ = 3 : ♥ = 0 : ♦ = 2 : ♣ = 3 :: Total = 8

A holdup wouldn't hurt you since West would retain the lead. But it probably wouldn't help you much either since you do have 2 stoppers in the suit. You obviously need to establish at least one more winner in ♠s so you won't have to depend on the ♥ A being with East. Need it be said that ♥s is the suit you are worried about and East is the Danger hand? Let's say you win the first trick with dummy's ♦ K.

Suppose you play ♠ A, then ♠ K Q. If they split 3-3 you will be soooo happy because you will make at least 10 tricks. But if East shows out on the third ♠ you will be pretty happy because you can give up a ♠ to West and still make at least 9 tricks. But if West shows out on the third ♠ you could be in deep trouble. You would have to give East the lead to establish an extra ♠ winner, and he might very well lead through your ♥ K.

There is a great safety play to protect against a 4-2 ♠ split. Play a low ♠ from dummy and finesse the ♠ 10. West may win with a doubleton ♠ J but you will still make the contract.

With this layout the safety play finesse actually works and you make an overtrick.

But visualize the ♠ J and ♠ 7 transposed. If you don't make the safety play it is true that the ♠ J will fall. BUT, East will still take the fourth ♠ and when he gets in he will return the ♥ Q.

out the ♠A the defenders might be able to cash 4 ♥s right away. So the immediate decision is whether you take the ♥A on the first trick or wait until the second.

If East has only 4 ♥s it will make no difference what you do because they will only win 3 ♥ tricks and you will make your contract. So assume that East has a 5-card suit, which means that West has 2 ♥s. East's suit is definitely **NOT** ♥ K Q J 5 2; he would have started with the ♥K, not the ♥5. So you can be sure that West holds either ♥ K x, ♥ Q x or ♥ J x. So what?

So you should play the ♥A immediately. If West puts on his small ♥ then his lone honor will block the suit the next time it is played. But if he unblocks the honor under dummy's ♥A then your ♥ 10 9 7 will be promoted into a second stopper.

If you play low on the first trick West will win the ♥Q and return the ♥6 to dummy's ♥A. When East gains the lead with his ♠A he will cash 3 more ♥ tricks. Down 1.

Play the ♥A on the first trick and West is hog-tied. If he plays low the suit blocks, if he sacrifices his ♥Q then your ♥ 10 9 7 prevents East from running the suit.

Partner's 2♥ is a transfer, so you bid 2♠. Partner now bids 2NT.

Partner's 2♥ is a transfer, so you bid 2♠. Partner now bids 2NT.

Partner is only inviting, so he must have either 9 or 10 points. And since he chose 2NT as the invitation he must have only 5 ♠s. You will accept the invitation since you have a maximum 1NT opener, and you choose 3NT since you know there is no 8-card ♠ fit.

North plays 3NT. When East leads the ♥5 you have an immediate decision to make.

Winner List: ♠ = 0 : ♥ = 1 : ♦ = 3 : ♣ = 1 :: Total = 5

It is pretty clear that the 4 additional winners you need will be ♠s. The danger is that when you force

4♠ by South

Lead: ♥K

3♠. Next?

You bid 4♠.

The contract would be 4♠ played by North.

South plays 4♠. West leads the ♥K. Do you take the first trick or not?

Loser List: ♠ = 1/2 : ♥ = 1 : ♦ = 1 : ♣ = 0 :: Total = 3/4

You should not hold up on the ♥ for two reasons. First, East might have a singleton. Second, you might not have a ♥ loser at all (if you can discard both of dummy's ♥ losers on your ♣s).

So win the ♥A and start on trumps by playing ♠A, then ♠K. Uh Oh. East discards a ♥ on the second ♠ so you have two ♠ losers.

Now you will have to be lucky. Leave the two master trumps undrawn and start running the ♣s. Fortunately East has 4 ♣s and you are able to discard both of dummy's ♥ losers. Play a ♦ next and your luck continues when it is West who takes the trick. Since East can't get in to pull your trumps, you cannot be defeated. You play your ♦ winners and ruff a ♥ in dummy. East will get his two trumps at the end.

Imagine what would have happened if you had played a third trump.

East would have taken the two trump tricks, then West would have taken 5 ♥ tricks and the ♦A.

You need to find out if partner has 4 ♠s. Using lebensohl the way to do that is to first bid 2NT. Partner bids 2♣, the relay bid. What do say next?

You need to find out if partner has 4 ♠s. Using lebensohl the way to do that is to first bid 2NT. Partner bids 2♣, the relay bid. What do say next?

Now you cue-bid 3♥. An immediate cue-bid would have been Stayman, (for the other Major), but the cue-bid following the lebensohl 2NT also promises a stopper in the enemy suit. In any case, partner replies 3♠. Next?
