With balanced distribution and 16 points SOUTH should open 1NT rather than 1♦.

NORTH's response is based on simple math. He adds his 18 points to the 15 minimum that SOUTH has announced and comes up with 33 points combined. This is enough for a small slam, and since he has balanced distribution he bids 6NT.

NORTH is right at the maximum for a 1♠ opening bid - one more point and he would have opened 2♣.

SOUTH does not have 3-card ♠ support but with 7 points must make some response. She cannot bid at the 2-level so she says 1NT (6-10 points).

NORTH is fine with Notrump so he bids 3NT.

SOUTH has a minimum 1 ♠ opening bid - 13 points and five trumps. She doesn't even suspect what's about to befall!

NORTH hears the 1 ♠ bid and all he wants to know is whether SOUTH has one, two or three Aces. So he uses the Blackwood convention, 4NT.

SOUTH has two Aces so she bids 5 ♥ (5 ♣ would show zero Aces, 5 ♦ would show one Ace, etc).

NORTH has heard enough and bids 6 ♠.

SOUTH has an above-minimum strength hand with a good 6-card suit. He opens 1♥.

NORTH, with 9 points, is a little too weak to bid at the 2-level so she bids a catchall 1NT.

SOUTH shows his 6-card suit and extra strength by jumping to 3♥, which NORTH raises to 4♥ since two trumps is now adequate support.

SOUTH has 14 points and opens her 4-card ♣ suit.

NORTH must respond, and with two 4-card Majors bids them "up-the-line", saying 1 ♥.

SOUTH now shows his 4-card ♠ suit, and NORTH again must bid. Since NORTH is pretty weak he just raises to 2 ♠, which SOUTH happily passes.
