When NORTH gives immediate ♠ support, SOUTH's thoughts naturally turn to slam. This is a good hand to use Blackwood on, so SOUTH bids 4NT.

NORTH's 5♦ answer shows one Ace, which SOUTH cleverly deduces must be the ♣A.

SOUTH bids 6♠ since NORTH has not bid strongly enough to think about 7.

NORTH expects to bid 2NT at his second turn, but SOUTH gives a positive 2♥ response and his thinking changes! First he supports ♥s, setting the trump suit.

SOUTH then bids 3♠, showing first round control. NORTH tries 4NT (Blackwood) and SOUTH replies 6♣. This shows a ♣ void and one Ace, obviously the ♠A.

NORTH bids 6♥, knowing they must lose the ♦A.

NORTH's jump to 4♣ is a Splinter bid, at least 4-card ♥ support, at least opening hand, and a ♣ Singleton or Void.

SOUTH bids 4NT, Blackwood.

NORTH's 5NT reply shows two Aces and a Void somewhere, obviously ♣s.

SOUTH counts thirteen tricks and bids 7♥.

SOUTH figures that if NORTH holds two Aces he will bid the slam.

NORTH only has one Ace, but she has something else just as good - a void in a suit which is higher-ranking than ♥s.

SOUTH manages to figure out that NORTH has a ♠ void and bids the slam anyway.

SOUTH may have a good hand but NORTH merely gave a simple raise. Even if NORTH has a maximum there won't be a slam.

SOUTH has a tough decision after the two Control-showing bids.

If he uses Blackwood and NORTH shows two Aces he will be no better off, because he won't know if one of the Aces is the useless ♠ A. Based on knowing that NORTH holds the ♦ A, he bids 6♥, hoping that he can at least make that and that 7 isn't a laydown!
