

Stayman and Jacoby Transfers

The Stayman convention is used to find a 4-4 Major suit fit after one partner has opened 1NT or 2NT. Responder bids an artificial 2♣ and the Notrump bidder then bids a 4-card Major if she has one, or 2 or 3 ♦ otherwise.

The Jacoby Transfer convention is used to uncover a 5-3 Major suit fit after one partner has opened 1NT or 2NT. A response of ♦s asks opener to bid ♥s, a response of ♥s asks opener to bid ♠s.

The two conventions complement each other, that's why they are together in this set of practices.

Because NORTH holds a 4-card Major suit, (♥s), he starts his responses with Stayman.

SOUTH denies holding any 4-card Major suit so NORTH gives up on ♥s. He next bids ♠s, showing five of them. He jumps to 3♠, giving SOUTH the choice between 4♠ or 3NT.

With three trumps SOUTH chooses 4♠.

WEST has a poor 9 points, but does have two 4-card Majors. So he uses Stayman.

When EAST bids ♠s, WEST isn't strong enough to bid game herself, so she temporizes with a 3♠ invitation.

EAST has a full 17 points so he accepts the invitation.

NORTH, with 9 points and a 6-card suit, knows they should play in ♠s. The question is: how high?

NORTH transfers SOUTH to ♠s, then invites by raising to 3♠.

SOUTH has only two trumps, (good ones, admittedly), but she has a maximum 17 point hand. So she bids the ♠ game.

WEST, with a 5-card AND a 4-card Major first uses Stayman.

EAST denies a 4-card Major, so WEST realizes that ♠s are out. He then bids ♥s, promising five of them.

EAST not only has three ♥s, she also has 17 points so she bids 4♥.
