SOUTH has a perfect 1NT opener; a balanced hand with 16 points.

NORTH has 7 points; he knows that the most points the partnership could hold is 24 (7 + 17). Since this is below the 26 point game requirement he passes.

SOUTH has an ideal 1NT opening - 16 points and balanced distribution.

With 12 points, NORTH knows the partnership total is between 27 and 29, enough for game but not enough to think about slam. Since NORTH also has a balanced hand she bids 3NT.

SOUTH has 16 points and balanced distribution. She naturally opens 1NT.

NORTH has 14 points and balanced distribution so he does the math. The partnership has at least 29 points (14 + 15). The partnership has at most 31 points (14 + 17).

Since this is more than the 26 needed for game, but fewer than the 33 needed for slam NORTH just bids 3NT, knowing SOUTH will respect his decision and pass.

SOUTH has a maximum 17 point 1NT opener.

NORTH has 9 points: - if SOUTH has 15 the total is 24, not enough for game. - if SOUTH has 17 the total is 26, enough for game. Since NORTH doesn't know what to do he passes the buck back to SOUTH by bidding 2NT; this is an invitation for SOUTH to bid game.

SOUTH has a maximum 17 point hand so she accepts the invitation.

With 9 points NORTH is unable to decide the final contract. If SOUTH has 17 points then the partnership should be playing 3NT. If SOUTH opened with just 15 points then 3NT will be too high..

So NORTH makes the temporizing bid of 2NT. This tells SOUTH that he must make the final call - go on to game if he has maximum, pass if he has minimum. On this Deal SOUTH has 17 points so he bids 3NT.

SOUTH has an mid-range 1NT opener; a balanced hand with 16 points.

NORTH has 9 points. He bids 2NT, asking SOUTH to pass if she has 15 or bid 3NT if she has 17.

But SOUTH has 16 points, which leaves her with no clear choice. In this case she must decide whether her hand is a "good" 16 points or a "poor" 16 points. Since her supporting cards are mostly 10's, 9's and 8's she figures it as "good" and bids 3NT.

The partner who is first sure what the final contract should be should just go ahead and bid it. This is called "She who knows, goes."

In this deal, for example, it is NORTH who knows. She has a balanced 14 points, so when SOUTH indicates 20/21 points with his opening 2NT bid she KNOWS the partnership holds about 34/35 points.

Therefore she GOES to 6NT.

SOUTH has a great 1NT hand - 17 points and 4-3-3-3 shape.

NORTH has 16 points; he figures it is possible that SOUTH can make a slam, but only if she has a 17 point opener. So he bids 4NT, expecting SOUTH to bid 6NT if she has 17 points but to pass if she has fewer.

He figured right - SOUTH had 17 points so she bid 6NT.

NORTH definitely does NOT have a balanced hand.
She has two doubletons and a 6-card Club suit.

But she DOES have 18 points, (two extra for the fifth and sixth Clubs), and her 18 added to SOUTH's minimum of 15 is enough to bid 6NT.

Notice how easy this will be to play once that Club suit is established.
