trick and on the ♥J continuation, hoping East started with a doubleton ♥A. But he didn't, and he plays it on the third ♥ which you ruff.

Back to the Plan. Having ruffed the ♥ you are down to just 4 trumps in your hand. You play ♠A, ♠K, ♠Q, noting that East discards on the second round. Therefore West will get a trump trick.

But don't give it to him now! Leave West with his master trump and switch to ♣s. If West doesn't ruff at all you will run 4 ♣ tricks and discard your ♦ loser. If he does decide to ruff it will be with a trick you were going to lose anyway. You win his return, ruffing a ♥ with the last trump, and continue playing ♣ and ♦ winners.

You can't help losing two ♥s and one ♠.

But you don't have to lose anything else as long as you don't lose trump control. So leave the master trump with West and just cash your minor suit winners. Let West ruff whenever he wants to because that will establish your ♠9 to control any more ♥ leads. If he decides not to ruff at all then he can have the final trick with his high trump.

South's 2♦ bid was New Minor Forcing, asking if North has 3 ♠s. North's 2♠ response said "Yes, I have." South is to play 4♠. West leads the ♥Q.

Losers: ♠ = ? ♥ = 2 ♦ = 1 ♣ = 0 Total = 3?

If the ♠s split 3-2 as they should, you have no ♠ loser and your plan will merely be to pull trumps and play winners. So what you do in that case is start figuring how to deal with a 4-1 split.

But first you should deal with the ♥K situation. Do you cover the ♥Q or not?

East plays the ♥2 and you the ♥4.

West continues with the ♥J.

Competent defenders do not underlead Aces at suit contracts. So if you are playing against a competent West you certainly don't cover. You play low on this

dummy. A defender will surely take his ♠ J here, and play another ♦. Win that trick and play another small ♠. This one will get you into dummy. And by the way, West discards a ♦ so it turns out you were going to lose a trump in any case. Play dummy's ♥ K Q, discarding your two minor losers. Ruff a ♥ to return to your hand, pull trumps and claim.

As you can see you have a trump loser in addition to the small ♦ and ♣. By establishing the ♠ entry to dummy you can discard the ♦ and ♣.

You can see how it works if the trump suit DID split 3-2 as you would expect it to do. Even without a trump loser you will still go down 1 if you cannot take two discards on dummy's ♥s.

So you give up a trump trick and gain two ♥ tricks in return. What a deal.

South is to play 6 ♠. West leads the ♦ Q.

Losers: ♠ = 0 or 1 ♥ = 0 ♦ = 1 ♣ = 1 Total = 2 or 3

You probably do not have a trump loser because they will probably split 3-2. Still, a 4-1 split is certainly not out of the question.

But those two minor suit losers are definite **UNLESS** you can somehow get to dummy's ♥ K Q. Can you?

You win the ♦ A.

Everyone follows.

East wins the ♠ J.

Yes you can get to dummy, in the trump suit. Win the opening ♦ lead. Unblock the ♥ A before touching trumps. Play a **SMALL** trump toward

your ♥ 9. Assume West wins with the ♥ K or ♥ Q, and plays another ♠.

In dummy for the last time, play a ♥ to your ♥ J and hope it wins.

As you can see, you must play ♥s twice from dummy in order to take the two finesses.

So you couldn't pull that one round of trumps because you couldn't waste either visit to dummy for anything other than the ♥ finesses.

South is to play 5 ♣. West leads the ♠ J; dummy wins with the ♠ Q, East plays the ♠ 2 and you the ♠ 9.

Losers: ♠=0 ♥=2 ♦=1 ♣=0 Total = 3

You have no way to get rid of the Fast ♦ loser, but you might be able to eliminate one of the ♥ losers. If East holds either ♥ K 10 x or ♥ Q 10 x then a Deep Finesse would save one loser.

Should you pull trumps right away?

East plays low.

No, you cannot pull trumps yet. For the Deep Finesse to work you must lead twice from dummy. The only way to get into dummy twice is in the ♠ suit and one of those times must be at trick 1.

Win the first trick with dummy's ♠ Q and play a ♥ to

you get the lead you can now run dummy's ♣ suit safely.

Suppose you had not driven out both of East's high trumps.

He would have ruffed the third ♣, before you could discard a ♠ loser from your hand. You would lose two trumps and two ♠s.

South is to play 4 ♥. West leads the ♦ K.

Losers: ♠ = 2 ♥ = 1 or 2 ♦ = 0 ♣ = 0 Total = 3 or 4

In fact if trumps split 5-0 you could have 3 losers in the suit and a disaster. So we won't worry about that possibility. Since the most likely scenario is a 3-2 split you should plan on taking the ♥ A K, then driving out their master trump so you can run dummy's ♣s without somebody ruffing in.

Bad news. West discards a ♦ on the second ♥ lead. Time for a change in plans?

No change of plan is needed. East has 2 master trumps at this point but you still have ♥ 9 7 5 3. So use one of your little ones to drive out East's ♥ J. He will probably force you to ruff a ♦, leaving you with ♥ 9 7. Use one of them to force out East's ♥ Q. You still have a trump left to stop their ♦s, and as soon as

Lead: ♣ J			

West takes his ♦ A.

As much as you'd like to get the trumps out you must work on the ♦s first. Because if you play even one trump the defense will win it and force out your remaining ♣ stopper before you have established a ♦ winner for the discard.

The correct procedure is to win the ♣ A, and immediately play a ♦ to dummy's ♦ Q, which holds the trick. Return to your hand with a ♥, and play another ♦ toward dummy. Suppose West takes his ♦ A on this trick (otherwise you have no ♦ loser). He can now play a ♣ but you win with dummy's ♣ K and discard your small ♣ on dummy's ♦ K.

Only then do you lead trumps.

This is the perfect example of when you delay leading trumps.

When you need to do something else first - in this case, to establish a ♦s winner early.

South is to play 4 ♠. West leads the ♣ J.

Losers: ♠=2 ♥=0 ♦=1 ♣=1 Total = 4

Unless the defense slips you are going to lose the Ace and King of trumps. And the ♦ A is a Fast loser that they can take whenever they want to, so that means you must try to dispose of your ♣ loser. The only realistic hope is that West holds the ♦ A and you can lead through it twice. So after you win your ♣ A do you play a trump?

West plays low.

Dummy's ♦ honour holds the trick.

East plays low.

You are back in your hand.
