| contract. |       |      |       |

North opens 1 ♠. You have 11 points, enough to respond 2 ♥ in standard bidding, but not when using 2/1. So we use the forcing 1NT. North rebids 2 ♣. This only promises 3 clubs, so is really just there so we can better describe our hand with our second bid. What do we bid now?

Now we can bid 2H, and it shows 6+ ♥s and only 6-10 points. North was forced to reply to 1NT, but he is not forced to bid again. With his minimum hand and a tolerance for partner's suit he just passes and the partnership ends up in a reasonable contract. This hand demonstrates one of the benefits of Forcing 1NT. In standard bidding South's first response would be 2 ♥, and North would have to bid again, probably 2NT. The partnership might go even higher but in any case would probably not reach a good

|          |       | 1 ♠  | Pass  |
| 1NT      | Pass  | 2 ♣  | Pass  |
| 2NT      | Pass  | 3NT  |       |
| All Pass |       |      |       |

East opens 1 ♠. What should you bid? You have 11 points, enough to respond 2 ♣, (or 2 ♦), in standard bidding, but not when using 2/1. So you bid 1NT, showing 6-12 points. East rebids 2 ♣. Again, this doesn't promise more than 3 ♣ - it's just leaving room for us to describe our hand with our second bid. What do we bid now?

We know East doesn't have 4 ♥s, so we show our above-minimum hand by bidding 2NT. East has extra values and raises to 3NT. East is happy to play Notrump. He assumes we must have something useful in ♦s and bids 3NT. 3NT seems to be a good contract. There are 8 top tricks and possibilities for a ninth winner in either ♠s, ♦s, or, (the best chance), ♣s.
