6♥ by South
good idea so you say 6♥.

Your partner's 3♥ is a limit-raise, 11-12 points with ♥ support.

What you want to know is whether partner holds the ♠A. If you bid 4NT and he shows two Key-Cards all will be well, you will know they are the two missing Aces. But if he shows just 1 Key-Card you will be in the soup since you can't tell if that Key-Card is the useful ♠A or the practically useless ♦A. So you don't use RKCB, you use control-showing and bid 4♣. Partner says 4♥.

Partner would have control-bid ♦s if he had the Ace. You may not think that helps but it does since now you can bid RKCB. You bid 4NT and he answers 5♣. What is your next bid?

It was a lot of work but you have figured out that partner holds 11-12 points including one Key-Card which must be the ♠A. It looks like the slam is a

Your 4♦ bid is a Splinter Bid, showing opening hand strength, at least 4 ♠s, and a singleton or void in ♦s. Partner bids 4NT.

You have 2 Key-Cards, the ♠K and the ♣A. So do you bid 5♥?

No. You have two Key-Cards **AND** a void. So you bid 5NT. Partner bids 6♠.
