With 18 points you have enough to make a Reverse.
So you bid 2♦. Partner now says 3♠.

Partner's jump bid shows a 6-card suit and enough
points to insist on game. You don't have ♠ support
but you do have good ♥ stoppers so you bid 3NT.

With his Reverse, partner has shown at least 17 points and at least 4 ♥s.

You could fall back on the guidelines and say that with 10 points you need to make a positive bid at this time, but it is simpler to just rely on "SHE WHO KNOWS, GOES."

Since you know of an 8-card ♥ fit and at least 27 points you bid 4♥.

It may be tempting to open 1 ♥, planning on Reversing in ♠ at your second turn to show your big hand.

Don't. A Reverse should always show an unbalanced hand with the first suit longer. So you open 1 ♠ and partner replies 2 ♠.

If you had opened 1 ♥ partner would have replied 1NT. Then when you Reversed with 2 ♠ he would have assumed you had a 4-card ♠ suit and would probably have put you back in ♥s, your known 5-card suit.

Things would have gotten confusing, to say the least.
