You would really love to pass. You have a terrible hand and you like the ♦s better than the ♣s.

But you are forced to bid. And since partner has 5 ♣s and only 4 ♦s, you should take him back to his first suit.

Mercifully he passes.

When partner shows 17+ points with his Reverse you are sure you belong in game. Since he did not support your ♠s you know he doesn't have four of them. You also know you have an 8-card fit in ♦s, but surely nine tricks in Notrump will be easier than eleven in ♦s.

With 17 points you have a perfect hand for a Reverse. So you bid 2♦. Partner then says 3♣.

Partner's return to your ♣ suit shows he has fewer than 9 points. Although it is possible to devise a hand for him where your side could make 3NT, the risk is too great.

So you pass. It's a good thing, too.
