DO NOT FINESSE THE ♥. Stick with your original 75% plan. Take the ♥A and play your small ♣, finessing the ♣J. This is why you couldn't discard a ♣ earlier.

The single ♥ finesse is an inferior play because its success depends on East holding a specific card, the ♥K.

The double ♣ finesse is much better because its success depends on West holding either of two cards, the ♣Q **OR** the ♣K.

South is to play 6NT. West leads the ♠3.

Winners: ♠=4 ♥=1 ♦=5 ♣=1 Total = 11

You need one more winner from the ♥ or ♣ suit. The straight finesse of the ♥K offers a 50% chance of success. The double finesse of the ♣K Q offers a 75% chance of success. It's a no-brainer. Run 4 ♠s and 5 ♦s ending in your hand. Be very careful not to discard a ♣ from your hand.

[showcards N:H9,CA,CJ,CT S:HA,HQ,C8,C3]

Lead a small ♣ and play the ♣10 if West plays low. Let's say East wins the ♣K and returns a ♥.

4♠ by South
 surely still have a ♥ loser. But if you finesse the ♣K successfully you will eliminate your ♣ loser.

South is to play 4♠. West leads the ♦K.

Losers: ♠=1 ♥=1 ♦=1 ♣=1 Total = 4

West has made another great lead. Any other suit would have given you a free finesse. You should duck the first ♦. It is very possible that West has led from ♦ K Q 10 and will be afraid to continue for fear you have the ♦J in your hand. You'd be very happy to see him switch to any other suit. But he doesn't, he continues with the ♦Q which you take with dummy's ♦A.

You are in dummy for the first, last, and only time. You need to try a finesse right now, but which one? At first you might think it makes no difference but, in fact, there is only one reasonable choice. If you finesse the ♠K successfully you may still have a ♠ loser. If you finesse the ♥K successfully you will

What a great layout! Three possible finesses and every one of them would work.

But as you can see, only the ♣ finesse will actually save you a trick.
