4♥ by South

South is to play 4♥. West leads the ♣J. East wins ♣ A K Q then switches to a trump.

East takes ♣ A K Q then switches to a trump.

You must win the next 10 tricks but you only have 9 winners.

East opened 1NT, showing 15-17 points, and West has already produced 2 Jacks. So both the ♠Q and ♦K are with East and you will have to put the squeeze on him.

You are in dummy, having won their trump exit with the ♥K.

Since you need all the tricks the count is already rectified.

You plan to squeeze East by running the long ♥s in your hand, but the problem is that the ♦Q is not a Threat card yet. To make it a Threat you need to unblock dummy's ♦A. So play the ♦A, then pull trumps with the ♥A Q.

Unblocking the ♦A to make your ♦Q a squeeze Threat is called the Vienna Coup.

With 6 cards left to be played you are ready to apply pressure to East.

Play the ♥9 8, discarding ♦s from dummy. East is not troubled yet, he can discard the ♦J and the ♠3.

[showcards N:SA,SK,SJ,D6 E:SQ,ST,S9,DK S:S8,S7,H6,DQ W:S6,S5,D9,D8]

East is now looking a little nervous, like he has a big target on his back!

Play the ♥6 and throw dummy's ♦6.

East can choose his fate. If he throws the ♠9 you will know that his ♠Q will drop since his third card **MUST** be the ♦K. So you would just play to the high ♠s and the ♠J would be good.

Or, he can throw his ♦K which makes your ♦Q a winner.

That worked great, right? Let's back up and pretend you had NOT unblocked the ♦A. We will just add one ♦ to everybody's hand and look at the ending.

Now when you play your ♥6 as a squeeze card you have a problem. You are squeezing dummy, not East.

If you discard the ♦6 East will throw his ♦J, then sit back and wait for his ♠Q trick.

But if you discard dummy's ♠J instead, East will match that by throwing his ♠9, then sit back and wait for his ♦K trick.

Only by visualizing the ending and using the Vienna Coup can this hand be made.

6 ♣ by South

Unblocking the ♠ A to create a Threat out of your ♠ Q is the Vienna Coup.

As you see, East was able to find discards on your first three trump leads, but when you play the ♣ 7 and discard dummy's ♠ 2 he is squeezed.

He can see that if he discards a ♦ dummy will be high, so he will probably throw the ♠ K in hopes that his partner holds the ♠ Q. But you have that card and you make the slam.

As an afterthought to this Deal, let us suppose you were playing 6NT rather than 6 ♣.

The only difference would be that to rectify the count you would have to hold up once on the opening ♥ K.

South is to play 6 ♣. West leads the ♥ K.

You have 11 top tricks and hope for a 3-3 ♦ split to give you one more. If they don't split you can hope that the defender with 4 ♦ s also holds the ♠ K and that a squeeze will be possible.

In case the squeeze becomes necessary you should rectify the count, so you win the first trick, pull trumps in two rounds, then give up a ♥ trick.

West takes the ♥ trick and plays the ♦ 9 which you win with your ♦ Q.

You now make the key play of taking dummy's ♠ A before running three rounds of ♣ s.
