Play your 4♥ winner's next. West follows suit while East follows twice, then discards 2♦s.

Don't play ♠s yet!

Play your ♦A. East must give up.

If he throws the ♣J, you win. But if he throws a ♠ you also win. This is what is called a Win-Win bridge play.

North's 3NT rebid shows 6 ♠s headed by A K Q and nothing else. South is to play 7NT. West leads the ♦Q.

Nice hand. You have 12 high card tricks and either a 3-2 ♠ split or a 3-3 ♣ split will land this Grand Slam. But even if neither suit splits nicely you can STILL make it if the same defender holds 4 cards in both suits; in that case you will squeeze for the thirteenth trick.

Win the ♦K and (**IMPORTANT!**) test the ♣s first by playing ♣A K Q. Darn. West discards a ♦ on the ♣Q.

Alright, so East holds the ♣ Guard. You still need to exercise caution.

South is to play 6NT. West leads the ♦ J. East takes the ♦ A and returns the ♦ 2.

Your 4 ♠ tricks, 2 ♥ tricks, 1 ♦ trick and 4 ♣ tricks are very easy to find. But that's only 11, so where in the world can you possibly find number 12?

With all those high ♦ s falling on the first two tricks dummy's ♦ 9 has become a threat against West. If it should happen that West also holds the only ♥ stopper you can squeeze him in the red suits.

You are going to now run your black suit winners, but take the ♣ s first so you can be playing winners from your hand when you squeeze West.

On the last 2 ♣ s West discards a ♦ and a ♥ .

Now come to your hand with the ♠ A and play the

You discard a small ♥ from dummy while West follows suit three times.

It is time.

Play your ♠ J and watch what West discards.

If he holds on to the ♦ 10 you will discard dummy's useless ♦ 9 and hope the ♥ s all fall under the ♥ A K.

If he discards the ♦ 10 then you throw dummy's small ♥ and dummy wins the last three tricks.
