you had to do was toss a small red card?

[showcards S:CT]

You are West. The bidding has been as shown. You led the ♠5, East plays the ♠10 and South wins the ♠K. To the second trick South plays the ♣10 and you must discard something.

Play the ♠J.

You know that East has no high ♠ honor or he would have played it to the first trick. So South has the ♠ A Q left, plus all those ♣ tricks. You need to have West switch to a ♥ if possible.

East must be expecting to lead a ♠ back when he wins the ♣Q which you hope he holds. Your ♠J discard may make him rethink. If your ♠s were any good why would you be discarding a winner when all

Hopefully East will come to the conclusion that this is Suit Preference for a ♥ return and will play his ♥J.
Hopefully.

get it. South will discard his ♣K on North's extra ♦ winner.

[showcards W:SK N:S9]

You are East. The bidding has been as shown.

Partner led the ♠A, dummy played the ♠2 and you signal with your ♠10. West next plays the ♠Q and you drop the ♠4, completing your doubleton signal. West then plays the ♠K and it turns out you don't have to ruff after all. So what are you going to play?

Play the ♣9.

This should be a clear enough signal for West to play a ♣ to your ♣A next.

An alternate play, just as good, would be for you to ruff the good ♠Q and play the ♣A yourself.

If you don't get your ♣ trick at trick 4 you will never
