You are East. The bidding has been as shown. You led the ♥4, West takes the ♥A and returns the ♥3. You ruff and then play what???

Play a low ♣.

Partner played the ♥3, a low card, for you to ruff. That means his re-entry, if he has one, is in the lower-ranking suit.

Partner takes the ♣A and gives you a second ♥ ruff.

West leads a ♣. Dummy plays the ♣K, you win that, cash another ♣, then cash your ♦Q. That first signal led to your side winning the first 6 tricks. Wow.

[showcards W:DA N:D3]

You are East. The bidding has been as shown.

Partner led the ♦A, dummy played the ♦3

Play the ♦2.

You know partner also has the ♦K, and normally you would give an encouraging signal when you hold the Queen. But with this hand you want partner to switch to ♣s as soon as possible. So you play a low ♦.

West looks at your signal, then looks at dummy, then looks at your signal. He knows you want a switch and it looks like a switch to ♣s might work the best. South plays a low ♣ from dummy, you win the ♣J. Next you play a low ♦, taken by West with his ♦K.

[showcards W:HA E:HQ S:H5 N:H6]

You are East. The bidding has been as shown. You led the ♥A, West puts on the ♥Q. It's your play.

Play the ♥2.

West's ♥Q is either a singleton, (practically impossible), or a signal showing that he also holds the ♥J. In either case you can reach the West hand on the second trick by playing a low ♥. Since you don't particularly want to start playing ♦s from your side, you go ahead and play a small ♥, won by West with the ♥J.

West next plays the ♦Q and however North tries it your side will take the next two ♦ tricks and set the contract.
