4♥ by North
point or two.

North plays 4♥. East leads the ♣A, ♣K, ♣Q.

North plays 4♥. East leads the ♣A, ♣K, ♣Q.

Losers: ♠ 0 : ♥ 0 : ♦ 2 : ♣ 2 : Total = 4

You must eliminate one ♦ loser, that means ruffing it in dummy. You would like to pull trumps first but you cannot chance pulling two rounds because if they don't split 2-2 you would have to leave one out until after you had ruffed the ♦. The problem would then be that the defender who took the ♦ A might lead the third trump, preventing your ruff.

So first you must drive out the ♦ A. After you ruff the ♣ you play a ♦ to dummy's ♦K. West takes the ♦ A and leads a trump. You win in your hand, pull one more trump, then play ♦Q, ♦7, ruffing in dummy. Back to your hand with the ♠A, pull the last trump and claim.

As you see you couldn't afford to pull trumps until after the ♦ ruff.

And you couldn't get the ♦ ruff until after you had forced out the ♦ A.

You have a straightforward 1♥ opening bid.

Partner responds 2♥.

With 17 points and two doubletons you are on the borderline between passing and bidding game. If partner has the top of his 6-10 points you want to be in game, if he is at the bottom you don't.

A reasonable bid would be 3♥, inviting partner to bid game with a maximum.

A better bid is 3♦, a Help Suit Game Try. This says the same thing, bid game with a maximum, but also says "Use your ♦ holding to help you decide."

That was just what South needed. He only had 7 points but decided the ♦ help was worth an extra

When responding to partner's Takeout Double:- with 0-8 points you bid cheaply- with 9-11 points you jump in a suit- with 12 or more points you cue-bid their suit

You have 11 so you jump to 2 ♠. Partner bids 4 ♠ and you pass.

East plays 4 ♠. South leads the ♥K.

East plays 4 ♠. South leads the ♥K.

Losers: ♠ 1 : ♥ 3? : ♦ 0 : ♣ 1 : Total = 5?

The loser count is somewhat misleading because obviously you can ruff some ♥s in dummy.

Sometimes it is better to count winners, even though it is a suit contract. Winners: ♠ 2 : ♥ 1 : ♦ 2 : ♣ 2 :

Thinking like this makes it clear that you must win 3 of your 4 small trumps. The best way to do this is to win the ♥A and pull 2 rounds of trumps with ♠A and ♠K, spurning the finesse. Trumps split 3-2, so leave the master trump out and cash your other high card winners. Then start cross-ruffing, ♥s in dummy and ♦s in your hand. The defender with the master trump is welcome to ruff with it whenever he wants - it won't stop you from coming to 10 tricks.

You may have been tempted to play the ♠K, then finesse South for the ♠Q.

If you tried that North would have won his ♠Q, then played another ♠. That would leave both you and dummy with only one trump each and you would have come up a trick short. You can afford to pull just two rounds of trumps, then must cross-ruff with your remaining four.
