3NT by North  
continuation. You win the third ♠ with your ♠A.

Partner's 2NT bid invites you to bid game if you have a maximum hand. Your 17 points is certainly a maximum so you bid 3NT.

North plays 3NT. East leads the ♠6. Will you take your ♠A immediately? or at trick 2? or trick 3?

Winner List: ♠ = 1 : ♥ = 2 : ♦ = 3 : ♣ = 0 :: Total = 6

You need 3 more tricks, and they must come from ♣s. So you must drive out the ♣A. The problem is that when the defenders win the ♣A they may also take 4 ♠ tricks.

While you cannot guarantee the contract you can at least give yourself a better chance by holding up your ♠A on the first trick, and also on West's ♠.

Now you drive out the ♣A. There are four possibilities: East may win the ♣A and cash two more ♠s, down 1. East may win the ♣A and cash just one ♠s, you make it. West may win the ♣A and have a fourth ♠ to lead, you make it. West may win the ♣A and be out of ♠s, you make it.

If you win the first or second ♠ trick you will fail. When you attack ♣s, West will win the ♣A and play a ♠.

Holding up twice can never hurt, and in this case it is the only way to make the contract.

2♠ by East

5Count losers in the long-trump hand, (dummy this time).

In the pre-transfer days you would have bid 2♠ with this hand and partner would have passed. Now you make partner bid the ♠s first by saying 2♥. Partner dutifully replies 2♠.

In the pre-transfer days you would have bid 2♠ with this hand and partner would have passed. Now you make partner bid the ♠s first by saying 2♥. Partner dutifully replies 2♠.

You say pass.

The contract would be 2♠ played by West.

East plays 2♠. South leads the ♣2. North plays the ♣Q which you take with your ♣A.

Loser List: ♠ = 3 : ♥ = 0 : ♦ = 1 : ♣ = 1 :: Total =

You can make the contract if you just force out their big trumps. But there is another tempting possibility. You could enter dummy with the ♦K and play the ♥4, finessing North for the ♥K. If the finesse is successful you could then discard dummy's ♣ loser on the ♥A.

Should you or shouldn't you?

The reward for this play would be an overtrick. The price of failure would be going down in a cold contract. So obviously, at rubber bridge, you would be foolish to take such a risk. Playing Duplicate though, you **might** consider it. But let's say you decide to play safe.

Win the ♣A and play a trump. As soon as you get in play another trump. The defenders will no doubt take their ♣ winner when they get in. North will no doubt win one of those high trump tricks, and he MAY lead a ♥ when he gets in. There you will be, trying to decide again whether to finesse . . .

As you see, the ♥K is in the wrong place this time, but might be right the next time.

Usually you should not risk your contract for the sake of an overtrick.

3NT by South

You need 3 more tricks, and they must come from ♦s. So you must drive out the ♦A. The problem is that when the defenders win the ♦A they may also take 4 ♠ tricks.

This is another case where you should hold up. Allow EW to win the second trick and take your ♠K only at trick #3.

Now you drive out the ♦A. If West has it and also started with 5 ♠s you will go down. But if East has the ♦A you will make the contract no matter how ♠s split.

If you win the second ♠ East will still have a ♠ when he wins the ♦A.

But if you hold up your ♠K East will have no ♠ to put his partner in with.

Partner's 2♣ is Stayman convention. With no 4-card Major suit your response is 2♦. Partner now bids 2NT.

Partner's 2♣ is Stayman convention. With no 4-card Major suit your response is 2♦. Partner now bids 2NT.

The 2NT bid is invitational, asking you to bid game with a maximum, pass with a minimum. You have 17 points so you bid 3NT.

South plays 3NT. West leads the ♠7. You put on dummy's ♠J, but East wins the ♠A then continues with the ♠9. Do you play your ♠K now?

Winner List: ♠ = 1 : ♥ = 3 : ♦ = 0 : ♣ = 2 :: Total = 6
