SOUTH has 20 points, counting two extra for the fifth and sixth ♠s. Naturally she opens 1 ♠.

NORTH has a poor hand, but with 7 points he must respond. He has four of partner's ♠s so he responds 2 ♠.

SOUTH KNOWS that $6 + 20 = 26$, so she GOES to 4 ♠.

SOUTH has 20 points, but with a 5-card Major opens 1♥ rather than 2NT.

NORTH barely has enough points for a response, but she does have four ♥s. So she responds 2♥.

SOUTH adds NORTH's 6 to his 20 and bids the game, 4♥.

SOUTH has 20 points because she gets to add one point each for her fifth, sixth and seventh ♥s. So she opens 1♥.

NORTH, with just 2 points, would have passed almost anything SOUTH bid. Certainly he passes the 1♥ bid.
