		Pass	1NT
Pass	3NT		
All Pass			
3NT by South			

SOUTH has 16 points and balanced distribution. She naturally opens 1NT.

NORTH has 14 points and balanced distribution so he does the math. The partnership has at least 29 points (14 + 15). The partnership has at most 31 points (14 + 17).

Since this is more than the 26 needed for game, but fewer than the 33 needed for slam NORTH just bids 3NT, knowing SOUTH will respect his decision and pass.

When SOUTH opens 1NT, NORTH knows that he cannot have more than 17 points. So with her 7 points, she knows there is no reason to respond.
