SOUTH has a great 1NT hand - 17 points and 4-3-3-3 shape.

NORTH has 16 points; he figures it is possible that SOUTH can make a slam, but only if she has a 17 point opener. So he bids 4NT, expecting SOUTH to bid 6NT if she has 17 points but to pass if she has fewer.

He figured right - SOUTH had 17 points so she bid 6NT.

NORTH definitely does NOT have a balanced hand.
She has two doubletons and a 6-card Club suit.

But she DOES have 18 points, (two extra for the fifth and sixth Clubs), and her 18 added to SOUTH's minimum of 15 is enough to bid 6NT.

Notice how easy this will be to play once that Club suit is established.
