NORTH has 20 points and 4-4-3-2 distribution, so he opens 2NT.

SOUTH has 8 points. She adds NORTH's 20 or 21 for a total of 28 or 29, enough for game but nowhere close to the slam requirement. So she bids 3NT and NORTH passes.

4NT by South			

SOUTH has a low-range 1NT opener; a balanced hand with 15 points.

NORTH has 16 points; he figures the partnership holds either 31, 32 or 33. Obviously he wants to at least reach game, but if SOUTH holds 17 points he wants to reach slam.

NORTH bids 4NT. Since this is more than game it should be clear to SOUTH that he is asking her to bid 6NT if she is at the top of her range. It is clear to SOUTH, but with just 15 points she passes.

NORTH has a minimum 1NT opening hand - balanced distribution with 15 points.

SOUTH has 9 points, which is not enough to bid game, but is worth making an invitational bid. So she says 2NT.

Since NORTH is minimum he declines the invitation by passing.
