4♠ by South

NORTH assumes her partner can win six tricks. So she will need to contribute four more to make game.

Three of them are obvious, and she expects to get a ♦ ruff also.

SOUTH's hand has the look of a Weak Two-bid, but it is one point too strong. So she opens 1♠.

NORTH naturally bids 2♣ and SOUTH rebids the ♠ suit.

NORTH always knew there would be a game bid, so with an 8-card fit he bids 4♠

NORTH may have an opening hand, but it is just the wrong kind of hand to respond to partner's preemptive bid. She doesn't have the immediate winners that SOUTH is likely to need, but she is in good shape for defense should the opponents bid.

In other words, NORTH has the perfect hand with which to pass.
