North passes - what should you open? North now bids 2♦. Since North originally passed this is **NOT** 2/1 Game Force. Instead, it is non-forcing and shows 11 or more points. You should show your 4-card ♥ suit. North gives a preference to 2♠. What do you do now?

Knowing that North does not have opening strength you pass 2♠.

East opens 1 ♠. With 9 points and a doubleton ♠ you must respond 1NT. Partner rebids 2 ♣.

West prefers ♣ over ♠ but must allow for the possibility that East has bid a 3-card suit. So West gives a preference to 2 ♠. This is called a "false preference", but it assures the team of being in at least a 7-card fit. East happily passes and the pair lands in a reasonable contract, probably better than 1NT.
