You dealt this hand.

With 26 points you naturally open 2♣. Partner responds 2♦.

You have 26 points and no 5-card suit. Since your hand is balanced you bid 3NT. Everybody passes.

3NT by East

With only 4 points you make a Negative 2♦ response to partner's 2♣ opener. He now bids 2NT. What is your bid?

True, 4 points isn't much. But added to partner's 22-24 it becomes enough for a game. Your problem isn't whether to bid to the game or not, (you definitely will), but whether you should use Stayman to find out if there is a 4-4 ♠ fit. You decide not to do this because your 4-3-3-3 distribution removes the possibility of you getting any ruffs. So you bid 3NT.
