[showcards S:CQ]

You are East. The bidding has been as shown. You led the ♦5, West wins the ♦Q and returns the ♦7. North holds up his ♦A until the third round. He then plays the ♣Q

Play the ♣8.

You assume (hope) that West holds the ♣A. If he does then he will need help from you to decide which trick he should win. You play the ♣8 first, and the ♣2 next to show an even number.

If West is paying attention he will know to win the THIRD ♣. This will kill dummy's ♣ suit, and with it North's chance of making 9 tricks.

your trump trick for later.

[showcards W:CA N:C2]

You are North. The bidding has been as shown.

Partner led the ♣A, dummy played the ♣2

Play the ♣3.

If you signal with the ♣9 South will continue with the ♣K and another which you will have to ruff. You will give up your NATURAL trump trick by doing so. Worse, you will allow West's ♣J to be established as a winner that East can later discard a ♦ on.

Much better to play low. Partner will surely switch to a ♦, and East will probably finesse, though it doesn't matter whether he does or not. You will win the ♦K, return the ♣9 back to South's ♣K, and still have
