4 ♠ X by North

will still be able to ruff one ♥ in dummy, but will be left with two losing ♥s and will be down 2. Without the two trump plays he could have ruffed all three of his ♥ losers and actually made the contract.

The bidding has been as shown. The contract is 4 ♠ doubled

Lead the ♠ A.

North's 2 ♠ bid is a Weak-jump Overcall, based on a 6-card ♠ suit and a weak hand.

Either the ♦ Q or ♥ J would normally be good leads.

But on this deal South/North have clearly sacrificed against your almost certain ♥ game. Since they don't have enough high-card strength to make this contract declarer is hoping to get some ruffs.

The way to cut down the number of ruffs he can make is to lead a trump at every opportunity.

So take the ♠ A and then play another ♠. Declarer will still be able to ruff one ♥ in dummy, but will be left with two losing ♥s and will be down 2. Without the two trump plays he could have ruffed all three of his ♥ losers and actually made the contract.

 cannot establish the ♠ winner.

The bidding has been as shown. The contract is 3NT

Lead the ♥3, fourth highest in an attacking suit.

Sometimes it comes down to just this kind of choice.
 Do you lead fourth down from ♠ K 8 7 3 or from
 ♥ Q 10 7 3.

The presence of the ♥10 bolsters the ♥ suit enough
 to give it the edge.

The suits could be arranged something like shown at
 left. With a ♠ lead the presence of the ♠10 in
 dummy allows declarer to make a second ♠ trick,
 which happens to be declarer's ninth trick.

But when you lead the ♥3 it does not promote a ♥
 winner for declarer, and left to his own devices, he
